NEW PRODUCTS FOR 2022 IN VIDEO FORM

If you don't like to read, you can watch: Dario, our master of tutorials, gives a comprehensive presentation of our new products for the coming season on YouTube.

Even small things can make a big impact

The year 2021 was our big PINO year. The new models with adjustable wheel-base are so perfectly suited for these climate-conscious times that we can hardly keep up with the orders. But that hasn't stopped us from turning our attention to smaller-scale solutions this year. For example, we've developed an ingenious Headrest that provides support in three different positions. And a Turn-Signal System that's not only safe and durable, but also beautifully designed. And then there are the bags that ... Well, maybe you should just see for yourselves!

01 – New bags for trikes and PINO

SEAT BAGS, RIGHT AND LEFT

AVAILABLE
June 2022

ART. NO.
27090

The Seat Bags are attached below the seat on both sides. A perfect place for keeping your papers, keys, and phone safe from the elements and easily reachable while on the road.

Compatible with:

- KETTWIESEL
- LEPUS
- PINO
- TRIGO UP

Not compatible with:

- TRET5
- TRIGO
- TRIGO NEXUS

SEATBACK BAG FOR PINO AND TRIKES

AVAILABLE
June 2022

ART. NO.
27127

The “glove compartment” for the captain: This weather-proof bag with a volume of over 5 liters is attached to the back of the recumbent seat. Thanks to the Fidlock fasteners, it is easy to remove, and thanks to the carrying strap, you can simply take the whole bag with you.

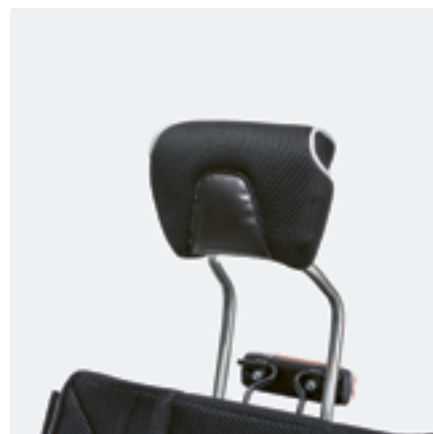

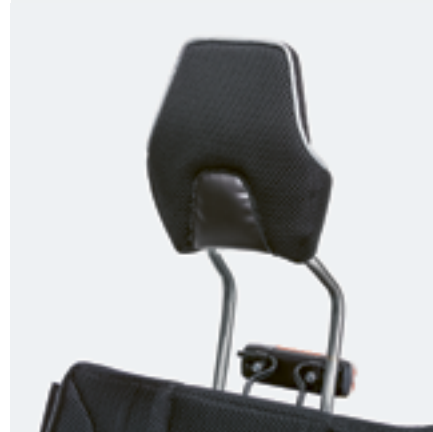

HEADREST

For big and small, for trikes and tandems – and with tool-free adjustability: The Headrest can be attached to the back of the recumbent seat and offers extra comfort for the rider. If side support is also needed, the wings on the right and left can be folded forward to hold and protect the rider's head. In the third position, it becomes a neck support – e.g. for helmet wearers.

AVAILABLE
November 2021

ART. NO.
26790

ARMREST, LEFT / RIGHT

AVAILABLE
November 2021

ART. NO.
22773

The comfortable armrest allows for a relaxed posture if a rider cannot hold the weight of their arm without support. Can be used on the right and left. Thanks to the new padding, it offers significantly more comfort.

SPECIAL HANDLEBAR STEERING WITH SHOULDERS

AVAILABLE
November 2021

ART. NO.
22480

The new padding makes it even more comfortable to steer with your shoulders. The individually adjustable steering unit enables people with either no arms or short arms to ride a trike

REDESIGNED RAIN PONCHO FOR TRIKES

AVAILABLE
October 2021

ART. NO.
25886

We are always coming up with new features for the Rain Poncho. Which is always a good thing! This time, we managed to not only optimise various details in terms of fit and workmanship, but also increase the comfort.

For example, the rider now enjoys significantly more freedom of movement - meaning that we've done away with the uncomfortable cocoon feeling. And you no longer have to be a contortionist to give hand signals when turning: thanks to the optimised side openings, the arms can slide comfortably in and out of the poncho.

The new Rain Ponchos, which VAUDE is producing for us, also have a new collar system that adds additional comfort by protecting the rider from cold air and wind, and keeping the neck and ears warm. This means that you can stay dry and warm in any weather.

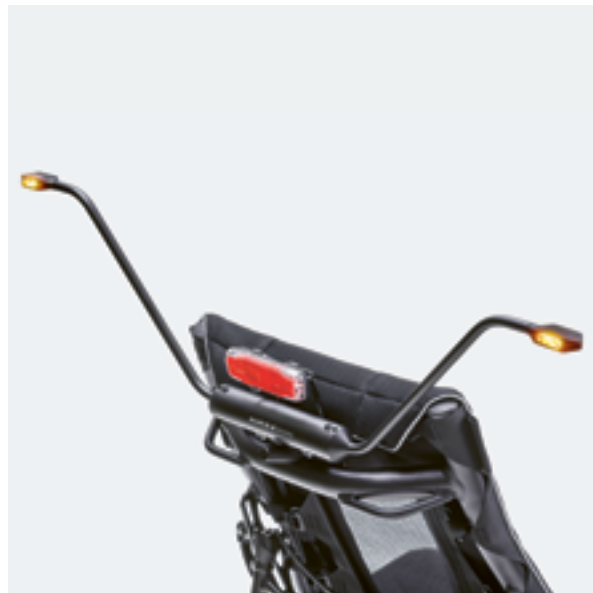

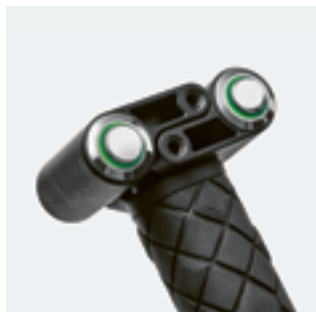

TURN SIGNAL SYSTEM

AVAILABLE
October 2021

ART. NO.
26966

More attractive, durable, and sophisticated: The redesigned Turn Signal System with hazard-light function. It also provides the rider with a visual and acoustic signal when it's blinking. The battery-powered system is attached to the seatback, and the controls to the handlebar grips – either one button on each side or both buttons on a single grip.

HEIGHT-ADJUSTABLE SEATPOST

AVAILABLE
October 2021

ART. NO.
26644

Up and down with the press of a thumb: a lever on the handlebar lets you automatically adjust the height of the seatpost. This accessory is not only practical when changing riders, but can also provide additional safety while riding – e.g. when stopping at red lights, you can lower the seat so that your feet can reach the ground.

GENERAL CATALOG 2022 (EN/DE/FR/NL)

AVAILABLE
December 2021

ART. NO.
EN: 27266 DE: 27265 FR: 27267 NL: 27268

It's browsing time again! Be it analog or digital: With the 2022 catalog, you can get yourself up to date on all of our trikes, tandems, accessories, and options.

We've integrated the new PINO catalog and of course all new products. And you can look forward to perusing the 84 colorful pages with two new stories and lots of new photos.
